# Office Memorandum • UNITED STATES GOVERNMENT

TO : Director of Training ~~EYES ONLY~~

DATE: 27 October 1960

FROM : Chief, School of International Communism

SUBJECT: Weekly Activities Report No. 38  
21 - 27 October 1960I. SIGNIFICANT ITEMS

None to report.

II. OTHER ACTIVITIES

B 1. On Tuesday, 25 October, I briefed a group of about ten special agents of the Office of Security on the current status of international Communism. They were identified to me as the agents in charge of OS's district offices, as "very senior" officials, and, in fact, they were more interested and responsive by far than any other OS group I've spoken to.

2. My reaction, at the moment, to our having brought [redacted] on the staff is distinctly a favorable one. We haven't used him yet in anything except tutorials, but he has brought an insight and experience from his SR and PP assignments which is proving to be very useful in our staff discussions. He also has many contacts in DDP which I am hoping will be exploitable. In time we also plan to have him participate in the CPO&O course.

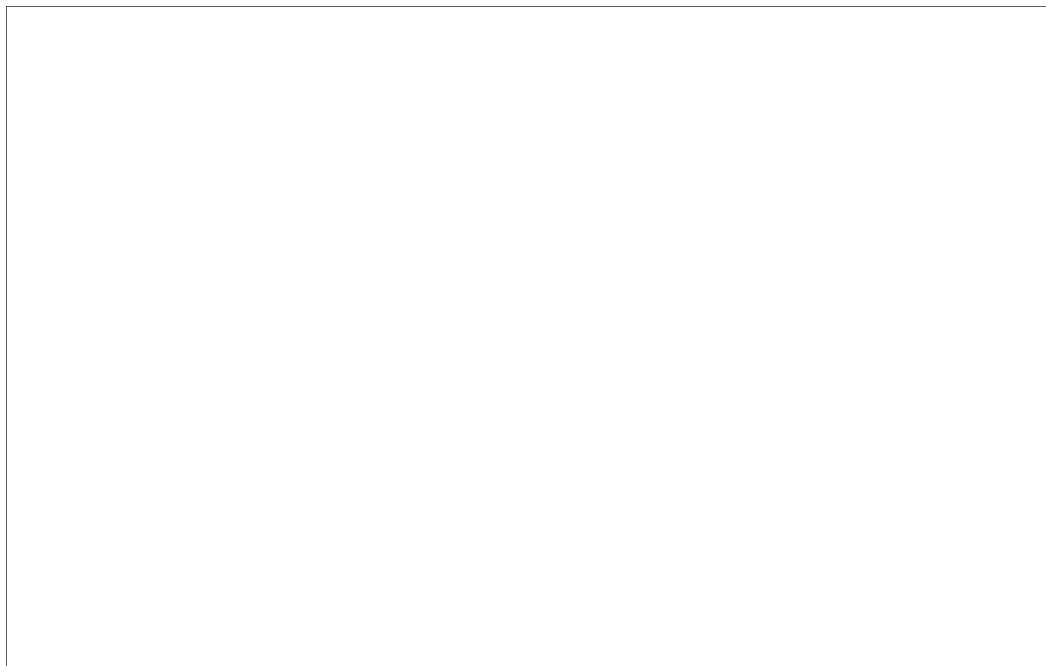

B 3. We have been asked to participate once again in FSI's Mid-Career course, with an expansion of time to two days. [redacted] the course chairman, also indicated that he was going to further expand CIA's participation by requesting a briefing from [redacted] the chairman of OSI's task group for the study of Soviet behavioral sciences. [redacted] apparently has been briefing numerous groups on the findings of his staff, soon to be published in a study entitled "The Influence of the Behavioral Sciences in Soviet Strategy." I hope that [redacted] doesn't delegate this responsibility to one of the more outspoken of his staff, one [redacted]. Ironically, two of the students in our current USSR. Basic Survey are members of this task force - studying the USSR after their contributions to the study already have been completed.
